ABOUT ME

AWS Certified Cloud Practitioner and Computer Science graduate (9.01 CGPA) with **hands-on project experience** in architecting scalable cloud infrastructure. Proficient in deploying applications using **AWS (EC2, RDS, VPC)**, containerizing services with **Docker**, and automating workflows via **CI/CD**. Eager to launch a career as a Cloud Engineer, bringing strong problem-solving skills.

EDUCATION AND TRAINING

Bachelor of Technology

Vellore Institute of Technology, Andhra Pradesh (VIT-AP University) [08/2020 – 05/2024]

City: Amaravati | **Country:** India | **Field(s) of study:** Computer Science and Engineering with Specialization in Artificial Intelligence | **Final grade:** 9.01 CGPA

Class XII - Senior Secondary School

Narayana Junior College [06/2018 – 03/2020]

Final grade: 982 / 1000

Class X - Secondary School

Keshava Reddy EM High School [06/2017 – 03/2018]

Final grade: 9.5 CGPA

PROJECTS

Yelp Camp - A Full-Stack Web App

Developed YelpCamp, a dynamic campground platform with user authentication, full CRUD operations, and Mapbox API integration. Built using Node.js, Express.js, and MongoDB, deployed on Render and MongoDB Atlas to provide enhanced campground discovery and review management.

Image Fusion for Medical Imaging

Developed a Python GUI-based Image Fusion system using DWT, CNNs, and Laplacian Pyramid for CT/MRI modalities. Integrated complementary anatomical and functional data using different techniques to achieve superior fused images, evaluated rigorously with quantitative metrics for medical analysis.

Scalable AWS Web Application Architecture with CI/CD | AWS, Docker, GitHub Actions,

- **Infrastructure:** Architected a high-availability cloud environment using **AWS EC2** for compute and **RDS PostgreSQL** for persistence, ensuring 99.9% uptime via **Auto Scaling Groups** and Application Load Balancers.
- **Security & Networking:** Designed a secure **VPC** with public/private subnets; implemented **IAM least-privilege policies** and Security Groups to restrict database access to internal traffic only.
- **DevOps Automation:** Containerised the Python backend using **Docker** and built a fully automated CI/CD pipeline with **GitHub Actions** for seamless deployment.
- **Monitoring:** Configured **AWS CloudWatch** for real-time log monitoring and resource alerting, reducing incident response time

CERTIFICATIONS

AWS - Certified Cloud Practitioner

NVIDIA - DLI Certification: Fundamentals of Deep Learning

Flows - ServiceNow

Certification from ServiceNow University

SKILLS

Cloud & DevOps

AWS (EC2, RDS, S3, VPC, IAM, CloudWatch, ALB, Auto Scaling), Docker, Terraform

Web Development

Javascript, Node.js, Express.js, MongoDB, MySQL, REST APIs, HTML5/CSS3

Development Tools & Platforms

Git/GitHub, Visual Studio Code, Postman, ServiceNow Studio

Programming & Query Languages

Python, Javascript, SQL

Soft Skills

Problem Solving, Communication, Adaptability, Team Collaboration

ACHIEVEMENTS

Top 10 Project – Driver Drowsiness Detection Project

Recognised as one of the top 10 projects at the VIT-AP Engineering Clinics Expo.

Academic Excellence – B.Tech, VIT-AP University

Graduated with a CGPA of 9.01/10 in Bachelor's Degree, reflecting strong academic performance.
