ABOUT ME

AWS Certified Cloud Practitioner and Computer Science graduate (9.01 CGPA) with **hands-on project experience** in architecting scalable cloud infrastructure. Proficient in deploying applications using **AWS (EC2, RDS, VPC)**, containerizing services with **Docker**, and automating workflows via **CI/CD**. Eager to launch a career as a Cloud Engineer, bringing strong problem-solving skills.

EDUCATION AND TRAINING

Bachelor of Technology

Vellore Institute of Technology, Andhra Pradesh (VIT-AP University) [08/2020 – 05/2024]

City: Amaravati | Country: India | Field(s) of study: Computer Science and Engineering with Specialization in Artificial Intelligence | Final grade: 9.01 CGPA

Class XII - Senior Secondary School

Narayana Junior College [06/2018 – 03/2020]

Final grade: 982 / 1000

Class X - Secondary School

Keshava Reddy EM High School [06/2017 – 03/2018]

Final grade: 9.5 CGPA

SKILLS

Cloud & DevOps

AWS (EC2, RDS, S3, VPC, IAM, CloudWatch, ALB, Auto Scaling), Docker, CI/CD, Terraform/

Machine Learning & AI

Python (NumPy, Pandas, Scikit-Learn), Deep Learning (CNNs), Computer Vision, Image Processing, Model Evaluation

Web Development

Javascript, Node.js, Express.js, MongoDB (Atlas), SQL (PostgreSQL/MySQL), REST APIs, HTML5/CSS3

Development Tools & Platforms

Git/GitHub, Visual Studio Code, Postman, ServiceNow Studio

Soft Skills

Problem Solving, Communication, Adaptability, Team Collaboration

PROJECTS

Scalable AWS Web Application Architecture with CI/CD | AWS, Docker, GitHub Actions,

- **Infrastructure:** Architected a high-availability cloud environment using **AWS EC2** for compute and **RDS PostgreSQL** for persistence, ensuring 99.9% uptime via **Auto Scaling Groups** and Application Load Balancers.
- **Security & Networking:** Designed a secure **VPC** with public/private subnets; implemented **IAM least-privilege policies** and Security Groups to restrict database access to internal traffic only.
- **DevOps Automation:** Containerised the Python backend using **Docker** and built a fully automated CI/CD pipeline with **GitHub Actions** for seamless deployment.
- **Monitoring:** Configured **AWS CloudWatch** for real-time log monitoring and resource alerting, reducing incident response time

Image Fusion System (Deep Learning) | Python, CNNs, PyTorch/TensorFlow

- **Algorithm Design:** Developed a Python-based GUI system to fuse MRI and CT scan images using **Convolutional Neural Networks (CNNs)**, Discrete Wavelet Transform (DWT), and Laplacian Pyramids.
- **Performance:** Integrated complementary functional and anatomical data to produce superior diagnostic images, validated using quantitative metrics like PSNR and SSIM.

YelpCamp - Full-Stack Web Application | Javascript, Node.js, Express, MongoDB

- **Backend Development:** Built a RESTful web platform with **Node.js** and **Express**, implementing secure user authentication and authorisation.
- **Database Management:** Deployed **MongoDB Atlas** for scalable data storage and integrated Mapbox API for geospatial features.

CERTIFICATIONS

AWS - Certified Cloud Practitioner

NVIDIA - DLI Certification: Fundamentals of Deep Learning

Flows - ServiceNow

Certification from ServiceNow University

ACHIEVEMENTS

Top 10 Project – Driver Drowsiness Detection Project

Recognised as one of the top 10 projects at the VIT-AP Engineering Clinics Expo.

Academic Excellence – B.Tech, VIT-AP University

Graduated with a CGPA of 9.01/10 in Bachelor's Degree, reflecting strong academic performance.
